

POLICIES & PROCEDURES

Admissions: IMACS accepts students based on their talents and abilities and does not discriminate on the basis of sex, race, nationality, ethnic origin, or other irrelevant criteria.

Release: IMACS may take photographs or video of any child participating in the Homeschool Program, and may use these images for marketing purposes. No compensation will be made for the use of these images.

Tuition, Payments and Refunds: A **non-refundable deposit** is required to reserve a class seat. The balance is due on the first day of class. If payment in full is not made at that time, the enrollment may be subject to cancellation at the discretion of IMACS. A portion of the tuition (\$100 per full morning track and \$75 per individual class) is **non-refundable** and will not be returned for any reason. If a student drops a class prior to the first class, the full tuition, less the deposit, will be credited to future classes. If the student drops between the first and second class, **half** the tuition will be forfeited and the other half will be credited to future classes. After the second class, the **full** tuition will be forfeited. In order to receive a credit as outlined above, the family must notify IMACS by the appropriate date that a student will be dropping a class.

Pre-registration for Current Parents: For quarters 2, 3, and 4, there is a pre-registration period in which current IMACS parents can reserve their children's class seats. Once open registration begins, spaces are filled first by waitlisted students and then on a first-come-first-served basis. A non-refundable deposit (\$100 per full morning track and \$75 per individual class) is required to reserve a space. To receive the Early Tuition Discount, current parents must pay in full during the pre-registration period. (Other discounts are available. Contact IMACS for more information.)

Conduct and Discipline: Students are expected to conduct themselves in an orderly manner and to treat those working around them with respect. Students whose behavior is disruptive in class will be removed from the classroom, and their parents will be notified. **Children are required to behave orderly and respectfully whenever they are in the IMACS building, whether during class or not.** IMACS reserves the right, at its sole discretion, to permanently expel any student or family whose influence or actions are deemed unsatisfactory or detrimental to the IMACS program or who will not abide by IMACS rules and policies. If this occurs, no reduction or return of fee, or any part thereof, will be made.

Make-ups: *Students should make every attempt to attend all classes. Make-up classes are NOT available for Right-Brain Combo or Beginning Chess. Limited make-ups may be available for IMACS Math Enrichment, Computer Programming, Electronics, Serious Fun and Logic Puzzles. The days and times of these make-ups are subject to availability and may change during the year at the discretion of IMACS. All classes, with the exception of Electronics and Computer Programming, must be made up within the same week as the absence. Electronics and Computer Programming must be made up within the same quarter. Neither credits nor refunds are available for missed classes.*

_____ ***My initials to the left indicate that I have read and agree to abide by the IMACS homeschool make-up policy.***

Drop-off and Pickup: Families may arrive no more than ten minutes prior to a family member's class. IMACS is not responsible for students dropped off too early. It is essential that parents (or other authorized adults) pick up the student as soon as class is over. Parents who have not picked up their children after ten minutes are considered late. In case of emergencies, parents must make every effort to alert IMACS. For the safety of their children, parents must advise them to wait **inside** the IMACS building to be picked up. Parents must then come in to get their children. If an adult other than a parent is to pick up a student, IMACS staff must be notified prior to the pick-up.

First Aid & Medications: It is the responsibility of parents to provide IMACS with emergency phone numbers and instructions. IMACS staff are not allowed to administer first aid or to dispense over-the-counter medications to any student without express prior written permission of parents. A first aid kit is available for any student requiring an antiseptic or Band-Aid. All possible precautions are taken to ensure that the activities at IMACS are conducted in a safe and responsible manner. However, because of the nature of some of the activities, regardless of the high degree of supervision, there is a potential for accidental injury. By signing this form, parents agree to assume these risks and to release IMACS, its officers, directors, employees and agents from, hold them harmless from and waive any claim against IMACS as to, any injury that may occur to their child(ren) while attending classes at IMACS.

Snacks: Snacks and drinks are available for purchase at IMACS for \$0.75 each. Students may also bring their own snacks. Eating is permitted during breaks and during the following classes (and no others): Primary Enrichment, Elementary Enrichment, Full Enrichment, and Logic Puzzles.

Non-IMACS Classes The Right Brain Combo classes are run by companies other than IMACS. While IMACS takes great care in finding only the best classes for its homeschool program, IMACS is not responsible for the content of these courses. The content and curriculum, as well as the quality of the instructors, is the sole responsibility of the company running the classes.

I have read and agree to all of the terms outlined above. (Signature required)

CLASS DESCRIPTIONS

Individual Classes meet for one to two hours, depending on the class. Individual class seats are limited. The colored star indicates the track in which the class belongs.

Math Enrichment (Grades 1-8)

Homeschool families use the Math Enrichment sequence to enhance their math curriculum and logical reasoning training. This unique series of classes is designed to take logical reasoning skills to a whole new level.

Math Enrichment students not only have fun in the classroom, but also develop critical thinking skills and a genuine understanding of the logical reasoning process required to solve advanced problems. IMACS Math Enrichment students become lifelong thinkers who can solve problems in the classroom and in the real world. **Before enrolling in any Math Enrichment class, students must attend a free Placement Class.**

“IMACS is the best thing a parent can do to prepare a child to excel in math.”

- Charles Sternfield, father of a Math Enrichment student

Primary Math Enrichment (Grades 1-2) ★

IMACS Primary Math Enrichment is the first level in this unique sequence of classes that combine games, logic puzzles and mathematical problem solving. IMACS instructors use fun activities and stories to make advanced concepts accessible to the youngest IMACS students.

Elementary Math Enrichment (Grades 2-4) ★★

IMACS Elementary Math Enrichment is the second level in the Math Enrichment sequence. This class uses math games and logic puzzles as a means of teaching students to think critically and logically. Pictorial tools allow students to understand advanced concepts about numbers, sets, relations and functions.

Full Math Enrichment (Grades 3-7) ★

Full Math Enrichment helps students develop the ability to deal with abstractions and teaches them to think through problems logically. By the end of this level, students will be solving problems that most high schoolers find challenging.

Intermediate Math Enrichment (Grades 4-8) ★

Due to the high level of this class, a recommendation from the Full Math Enrichment instructor is required.

Advanced Math Enrichment (Grades 5-9)

Because the final level of the IMACS Mathematics Enrichment program is so challenging, the student must receive approval from his or her Intermediate Math Enrichment instructor before enrolling. Note that this class is only available in the after-school and weekend programs this year.

“IMACS students are taught to think like college students. Instructors present the information in a fun way so youngsters don't realize they are learning difficult material.”

- Sun-Sentinel

Electronics (Grades 3-9) ★★

Homeschool students are introduced to the fascinating world of electronics and learn about components such as resistors, diodes, LEDs, capacitors, transistors and integrated circuits. They design and build fun projects – and they get to keep the electronic devices they build.

- ★ Primary Enrichment Track
- ★★ Elementary Enrichment Track
- ★★★ Elementary + Serious Fun Track
- ★★★★ Full Enrichment Track
- ★★★★★ Intermediate Enrichment Track
- ★★★★★ Logic Track

DISCOUNTS & PRICES

- ★ All Homeschool individual classes are deeply discounted from 25% to 44% off!
- ★ Receive an even greater discount when you enroll in a **full morning track!**
- ★ Sibling discounts are also available.
- ★ \$50 referral credits are available.
- ★ All prices are for an 8-week quarter.

Individual Classes

	Reg. Price	Home-school Price
Primary Math Enrichment	\$324 ⁰⁰	\$219 ⁰⁰
Elementary Math Enrichment (80 minutes)	\$484 ⁰⁰	\$269 ⁰⁰
Beginning Chess	†	\$215 ⁰⁰
Serious Fun	†	\$215 ⁰⁰
Right Brain Combo	†	\$210 ⁰⁰
Full Math Enrichment (2 hours)	\$589 ⁰⁰	\$399 ⁰⁰
Intermediate Math Enrichment (2 hours)	\$599 ⁰⁰	\$409 ⁰⁰
Computer Enrichment & Virtual Robotics	\$294 ⁵⁰	\$220 ⁰⁰
Logic Puzzles	†	\$215 ⁰⁰
Electronics	†	\$245 ⁰⁰

Full Morning Tracks

If you're enrolled in the following individual core classes...	make a full morning track by adding the following classes ...	for only ...
Primary Math Enrichment (1 hour)	Primary Enrichment Track (adds 2 hours: Beginning Chess and Right Brain Combo)	\$205 more (Total: \$424)
Elementary Math Enrichment (80 minutes)	Elementary + Serious Fun Track (adds 1 hour: Serious Fun)	\$125 more (Total: \$394)
	Elementary Enrichment Track (adds 2 hours: Serious Fun and Right Brain Combo)	\$200 more (Total: \$469)
Full Math Enrichment (2 hours)	Full Enrichment Track (adds 1 hour: Computer Programming & Virtual Robotics)	\$80 more (Total: \$479)
Intermediate Math Enrichment (2 hours)	Intermediate Enrichment Track (adds 1 hour: Electronics)	\$80 more (Total: \$489)
Logic Puzzles (1 hour)	Logic Track (adds 2 hours: Electronics and Computer Programming & Virtual Robotics)	\$264 more (Total: \$479)
Computer Enrichment & Virtual Robotics (1 hour)	Logic Track (adds 2 hours: Electronics and Logic Puzzles)	\$259 more (Total: \$479)

† During the school year, this class is offered in the Homeschool Program exclusively.

Logic Puzzles (Grades 3-9) ★

Mysteries of pure logic are disguised in fun, compelling stories. IMACS Logic Puzzles students develop a love for mathematical thinking. Carefully crafted, this class leads students from elementary deductive reasoning to critical thinking skills that exceed those of most college graduates! Team competitions add to the fun.

Computer Programming & Virtual Robotics (Grades 3-9) ★★

Students write computer programs and apply their skills in the Virtual Robotics Lab. This virtual world contains programmable, configurable robots that operate under physical realities such as friction, acceleration and conservation of momentum. Students also use the programming language LOGO, developed at MIT, to complete challenging projects designed by the IMACS Curriculum Development Group.

"We chose IMACS for its logic and critical thinking emphasis. The best result though was our daughter's increased confidence ...and her discovery that learning is fun."

- Suzanne Kerr, mother of a Math Enrichment, Computer Enrichment and Logic Puzzles student

Right Brain Combo (Grades 1-4) ★★

Two exciting classes in one! Right Brain Combo is designed to bring out students' creative side. This class is on a rotating schedule (with each individual subject taught at least three times each quarter).

Fine Art (by Monkey See Monkey Do)

Fine Art is designed to bring out and cultivate the natural creativity in children. In addition to learning art fundamentals, students are challenged with new techniques, introduced to Art History and given the opportunity to work with a variety of media. An experienced art teacher from Monkey See Monkey Do Art Studio leads every class in an easy to understand, step-by-step manner.

Word Up (by Book n Cookin)

Word Up (by Book n Cookin) is an engaging and eclectic class focused on books, stories, and other literary pieces. The instructor, who has a master's degree in education, leads the class in a wide variety of group activities. Students are having too much fun to know they are improving their reading and listening comprehension skills.

Beginning Chess (Grades 1-2) ★

Chess helps students develop patience, planning and reasoning skills through mental competition. Independent thinking and decision making are important components of this class. This class is an option for students placed into the Primary Enrichment level.

Serious Fun (Grades 2-4) ★★

This class is inspired by the "end game" puzzles found in Beginner Chess. These types of puzzles help students learn to analyze all possibilities as they reason through each problem. Serious Fun takes the "end game" concept to the next level! In addition to using more intellectually exciting "end game" puzzles, the IMACS instructor will teach a wide variety of other short games that, much like chess end games, train students to think through each solution systematically and logically. A quick chess review prepares new students for these types of puzzles.

SCHEDULE (2018-2019)

One of the unique benefits of IMACS is that we group students by ability and not by age. Because of this, every child wishing to enroll in an IMACS program **must first attend a free Placement Class.**

During the free Placement Class, you will see the IMACS program first-hand. After the class, an IMACS instructor will speak with you individually about the best track for your child.

After being placed appropriately at the free Placement Class, you may enroll your child in either a full morning track or an individual class.

Classes meet once a week in Plantation. Choose Tuesday or Wednesday.

All classes in the full morning tracks are available for individual class enrollment. However, spaces in all individual classes are extremely limited. Call IMACS for more information.
